

SAP Recognized Expertise
in SAP Business One

ABS Academy

**Professional ERP
Training Program**

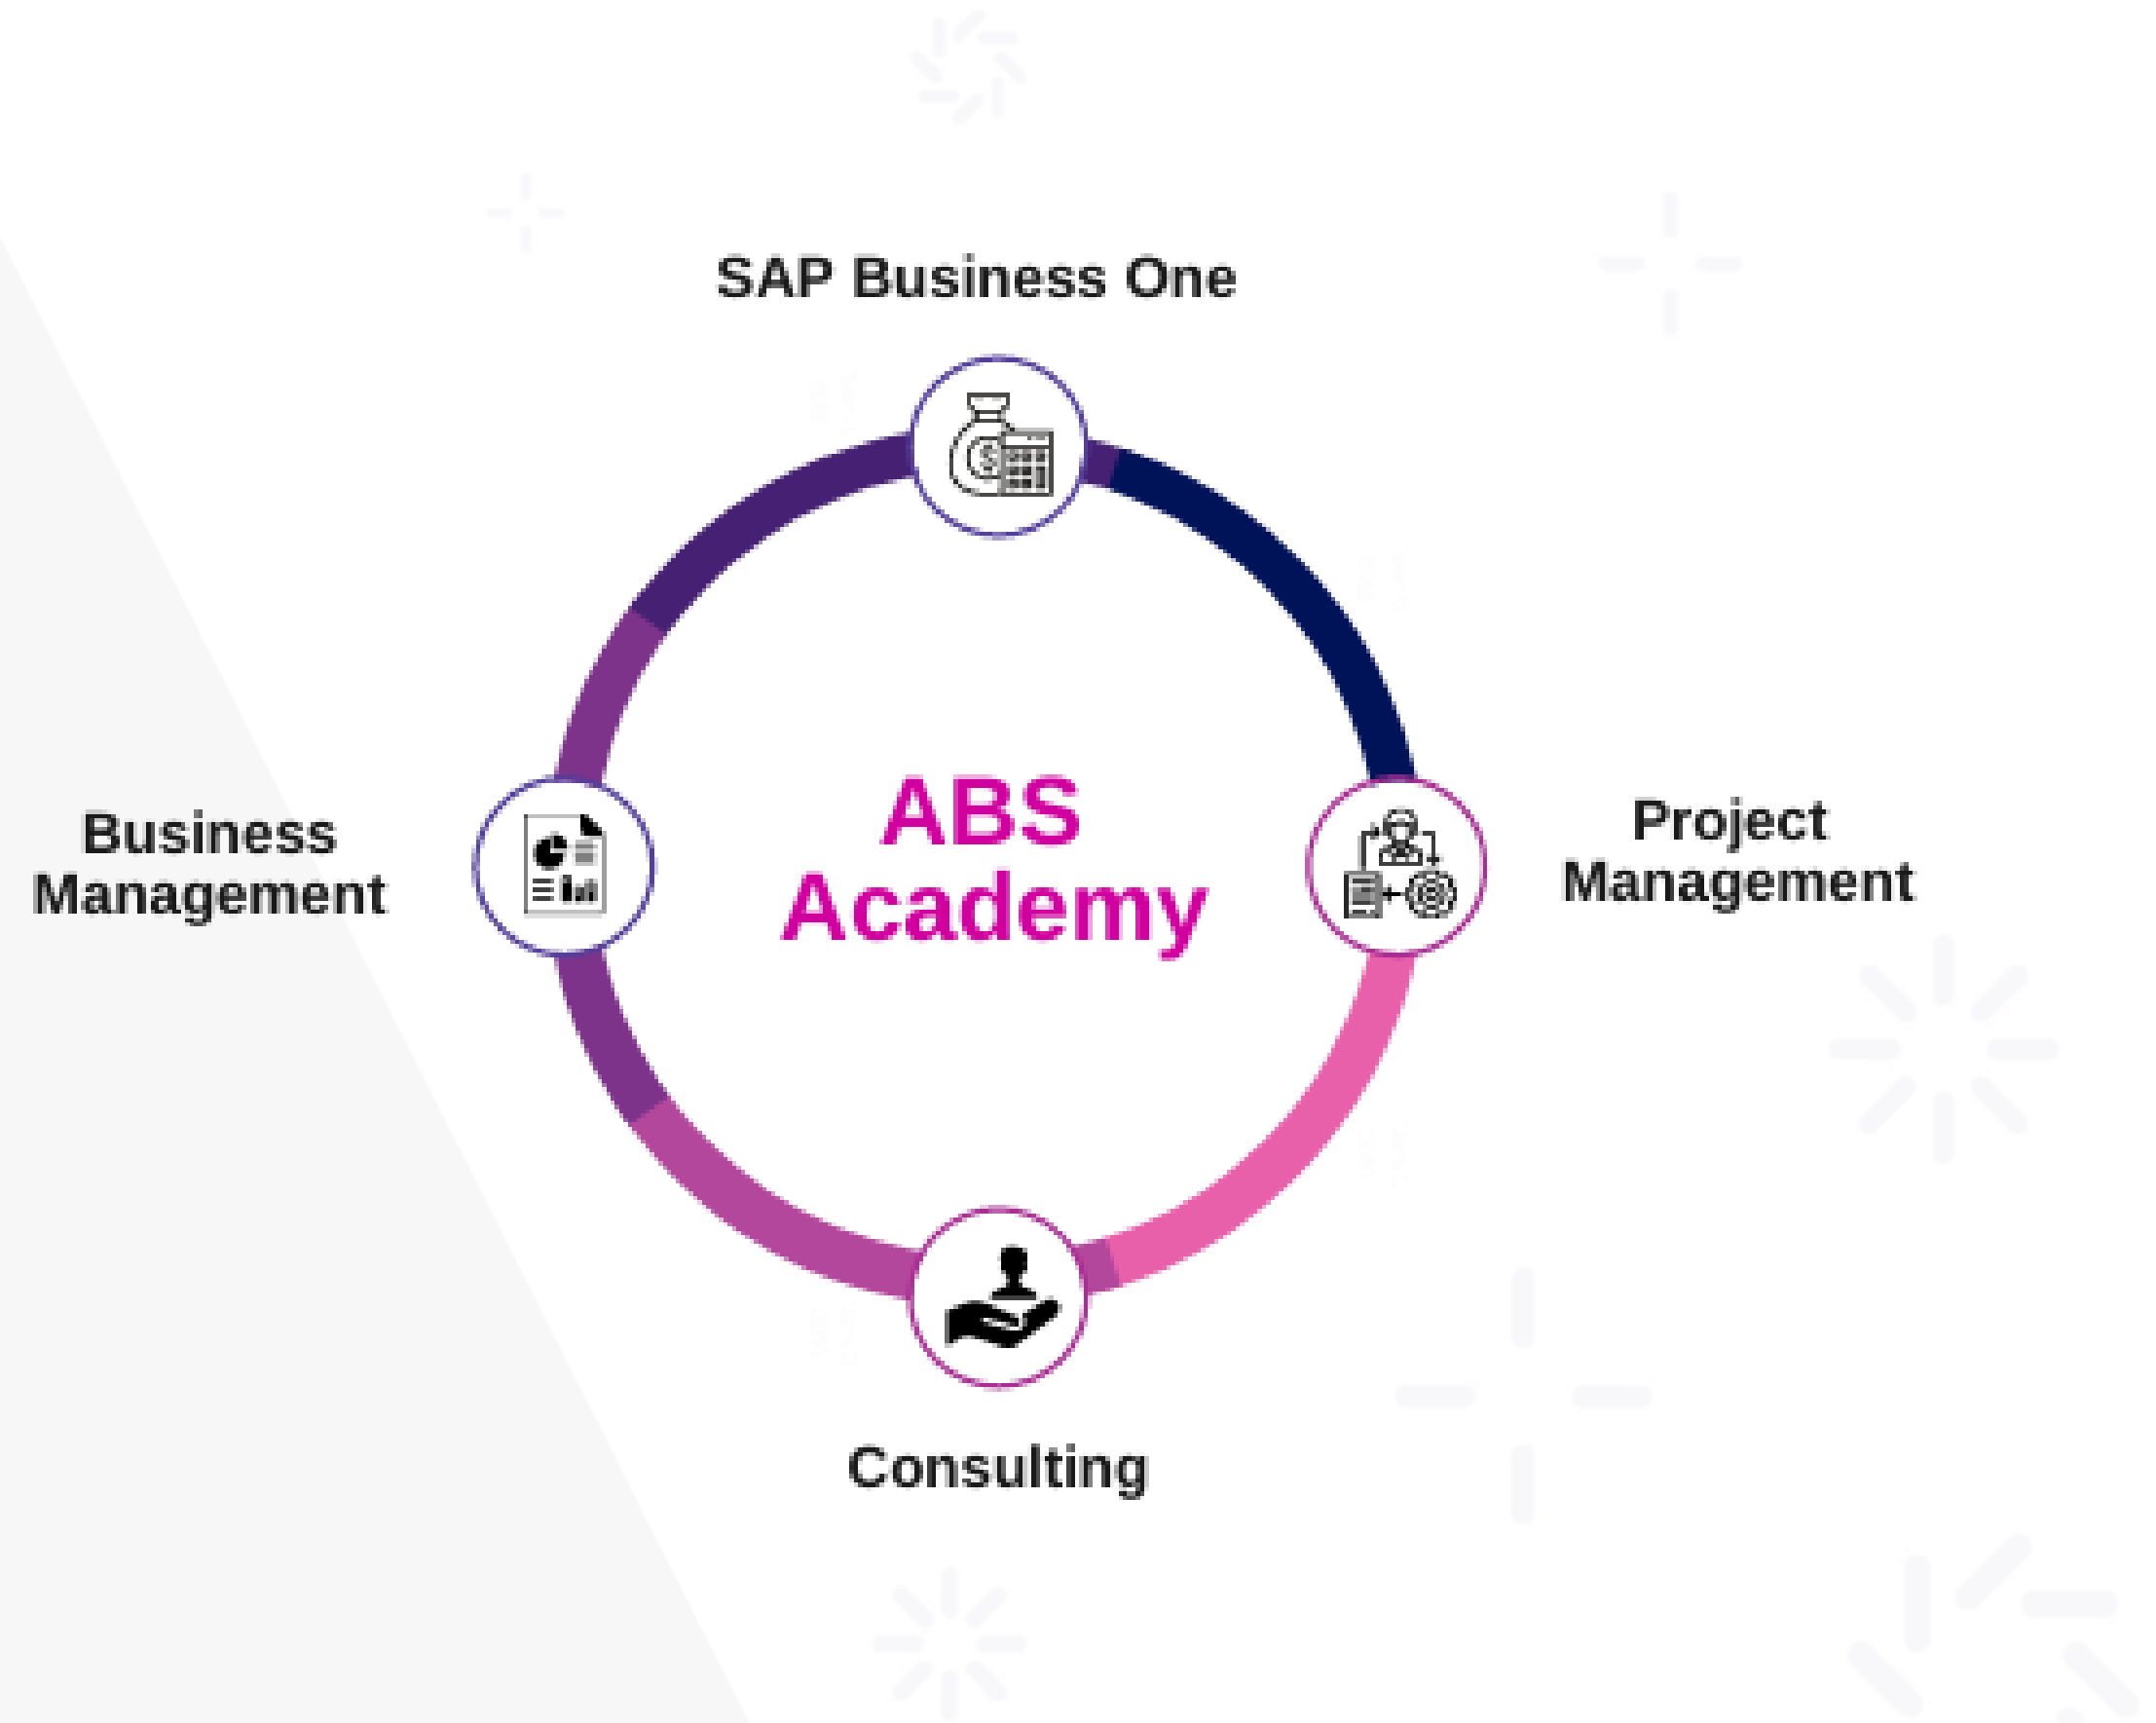

Advanced Business Solutions | SAP Gold Partner

Academy Overview

ABS Academy is uniquely designed for people who want to learn and master the world's most known ERP system; SAP Business One, as well develop their business and project management skills.

The academy will be a series of interactive, educational face-to-face sessions with industry and software solution experts.

Introduction to Advanced Business Solutions (ABS)

3

offices

14

countries served

40+

dedicated
consultants

140+

happy
customers

3,000+

empowered users

Advanced Business Solutions was founded in 2010 with a clear mission to help people transform their business through comprehensive, affordable, world-class software solutions.

As the first SAP Gold Partner in Jordan, we implement the world's number one ERP solution, SAP Business One. After 10 years of continuous growth and development, we have now chosen to open doors to a new division, allowing not only our customers, but non-ERP users to become software solution and business process experts.

A person is shown from the side, wearing a light-colored long-sleeved shirt, typing on a silver laptop. The laptop is open and positioned on a wooden desk. To the right of the laptop, there is a gold-colored mesh pen holder containing several pens. The background features large windows with a grid pattern, letting in bright, natural light. The overall scene is a professional office environment.

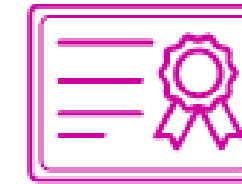

Why join ABS Academy?

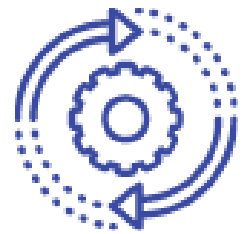

Learn and master practical applications that are used in the real world of all industries.

Discover relevant and timely best practices which give you technical and practical advantage over other professionals.

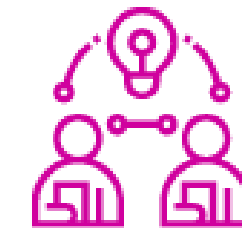

Upon successful completion of the training program, participants will be awarded an attendance certification by ABS.

Learn from practitioners how to effectively manage the transition towards new work.
