Job Title	Job Description	Working Experience (In Years)
Developer SalesForce	Candidate will be responsible for implementing Customer Onboarding flows using SalesForce platform.	5+
Quality Analyst	Experience required: 1. Solid engineering background with experience in Java 2. Develop tests and test strategies to ensure product correctness before launch 3. Perform test activities incl. exploratory, usability, performance, and integration testing	4 to 6+
Full stack Developer	Experience required: building high-performing, scalable, distributed applications.	6+
Backend Developer	• BS/MS degree in Computer Science, Engineering, or a related subject • +6 years Software Development experience using Java technologies • Hands on experience in designing and developing PCI/DSS compliant applications • Object Oriented analysis and design using common design patterns • Profound insight of software systems internals (Concurrency, Memory Management, Transaction management, etc.) • Excellent knowledge of Relational/NoSQL Databases, and ORM technologies • Experience in managing software components on the cloud (AWS/Azure) • Experience in developing web applications using at least one popular web framework	6+
Frontend Developer	Hands on development and delivery experience with HTML5, CSS3, JavaScript, bootstrap, Angular & Ajax. • Knowledge on ReactJS will hold a big advantage • A strong JavaScript foundation and clear understanding of JavaScript classes, prototype based inheritance, modules, etc. • Ability to convert the UI designs into fully functional interactive prototypes. • Experience in PSD to Html Conversion with Responsive design • Knowledge in developing UI software interacting/interfacing with Browsers • Good understanding on Agile methodologies • Awareness of current trends and best practices in front-end community. • Passion for software engineering and craftsman-like coding prowess • Great OO skills, including strong design patterns knowledge • Experience working with Agile, TDD, Lean and/or Continuous Delivery approaches and best practices, such as Extreme Programming (XP) • Enthusiastic to work collaboratively with people and sharing your ideas to solve real business problems.	5+
Business Analyst	• Have been involved with most aspects of software delivery and life cycle, including gathering and developing detailed functional requirement, breaking down complex requirements into independent user stories, capturing detailed acceptance criteria, building a release plan with user stories, managing the backlog, running showcases and incorporating user feedback • Have some familiarity with the technical aspects of software development, including understanding the capabilities and limitations of programming languages, and a knowledge of testing (System, Unit, Integration,	5+

	Interface) • An understanding of data modelling, object modelling, and OO design principles • Successfully applied Agile/XP/Scrum practices • Have exceptional listening, written and verbal communication skills	
Android Developer	REQUIREMENTS: • Bachelor's or Master's degree in Computer Science, Software Engineering, or a related field. • Proven track record of at least 5 years in Android application development. • Strong expertise in Java and/or Kotlin programming languages. • Deep knowledge of Android SDK, Android Studio, and related tools. • Experience with RESTful APIs, JSON, and third-party libraries.	5+
Base24 (FRESHERS)	Experience / Skills Required • Bachelor's degree in Computer Science, Information Technology, or a related field. • Strong knowledge of programming languages such as COBOL, C, C++, or Java. • Familiarity with payment processing systems or prior experience working with financial systems is a plus. • Understanding of transaction processing and payment industry concepts. • Knowledge of SQL and databases is beneficial. • Excellent problem-solving and analytical skills. • Strong communication and interpersonal skills, with the ability to work effectively in a team environment. • Eagerness to learn, adapt, and contribute in a fast-paced and dynamic environment	6 Months - 1 Year (Internships Included)
Production - Support (Junior)	Educational Qualification: B.E/B. Tech/BSc in Computer Science and above with minimum score - 50% Relevant Experience - 1-3 Years Database - Oracle / SQL Application Server - Weblogic, JBOSS, TOMCAT OS - Windows, Unix Technology - Java, Phyton Tools - Remedy, Jira, Confluence, Bit Bucket, Intllij, putty, toad, SQL Developer, MSSQL - Studio	1 to 3
Qlik-View Developer & Support	Educational Qualification: B.E/B. Tech/BSc in Computer Science and above Relevant Experience - 5-8 years Qlik-View, Qlik-Sense, N-Printing OS - Windows, Unix Database - Oracle / SQL Tools - Remedy, Jira, Confluence, Bit Bucket	5 to 8
Production - Support Loyalty Programs	Educational Qualification: B.E/B. Tech/BSc in Computer Science and above Relevant Experience - 4-7 years Domain Knowledge - Loyalty, Cashback, Schemes, Cards & Payment, Merchant Acquiring. Database - Oracle / SQL Application Server - Weblogic, JBOSS, TOMCAT OS - Windows, Unix	4 to 7

	Technology - Java, Phyton Tools - Remedy, Jira, Confluence, Bit Bucket, Intllij, putty, toad, SQL Developer, MSSQL - Studio	
Control -M Developer & Support	Educational Qualification: B.E/B. Tech/BSc in Computer Science and above Relevant Experience - 4-6 years BMC - Control M Application OS - Windows, Unix Database - Oracle / SQL Tools - Remedy, Jira, Confluence, Bit Bucket, Git	4 to 6+
Production - Support (Senior)	Educational Qualification: B.E/B. Tech/BSc in Computer Science and above Relevant Experience - 6-8 years Database - Oracle / SQL Application Server - Weblogic, JBOSS, TOMCAT OS - Windows, Unix Technology - Java, Phyton Tools - Remedy, Jira, Confluence, Bit Bucket, Intllij, putty, toad, SQL Developer, MSSQL - Studio Domain Knowledge - Cards & Payment, Merchant Acquiring.	6 to 8
Card Control - Full Stack Developer - Junior	Educational Qualification: B.E/B. Tech/BSc in Computer Science and above Relevant Experience - 3-5 years Frameworks: Spring(Boot, Rest, Mvc, Data, JDBC, Batch, Security, WebFlux), JPA Domain Knowledge - Cards & Payment Webservice - SOAP, REST Messaging - JMS, ISO 8583 Database - Postgre SQL Application Server - TOMCAT OS - Debian Unix Technology - Java Tools - Remedy, Jira, Confluence, Bit Bucket, Intllij, putty, toad, SQL Developer, MSSQL - Studio, Git Cache: Redis, EhCache, Memcache Cloud Engines: AWS, GCP Messaging systems: Kafka, ActiveMQ, RabbitMQ, Mqqt CI/CD: Teamcity, Jenkins, Bamboo Container technologies: Docker, Kubernetes	3 to 5
Card Control - Full Stack Developer - Senior	Educational Qualification: B.E/B. Tech/BSc in Computer Science and above Relevant Experience - 7-8 years Frameworks: Spring(Boot, Rest, Mvc, Data, JDBC, Batch, Security, WebFlux), JPA Domain Knowledge - Cards & Payment Webservice - SOAP, REST Messaging - JMS, ISO 8583 Database - Postgre SQL Application Server - TOMCAT	7 to 8

	OS - Debian Unix Technology - Java Tools - Remedy, Jira, Confluence, Bit Bucket, Intllij, putty, toad, SQL Developer, MSSQL - Studio, Git Cache: Redis, EhCache, Memcache Cloud Engines: AWS, GCP Messaging systems: Kafka, ActiveMQ, RabbitMQ, Mqqt CI/CD: Teamcity, Jenkins, Bamboo Container technologies: Docker, Kubernetes	
Card Control - Devops & Implementation	Educational Qualification: B.E/B. Tech/BSc in Computer Science and above Relevant Experience - 6-8 years CI/CD: Teamcity, Jenkins, Bamboo Container technologies: Docker, Kubernetes Database - Postgre SQL Sysadmin - OS - DEBIAN, REDHAT, LINUX Webserver / Load Balancer - nginx Networking - Virutualization Scripting - BASH, SHELL Monitoring - ZABBIX HA,FT concepts understanding Domain Knowledge - Cards & Payment Messaging - JMS, ISO 8583 Application Server - TOMCAT OS - Debian Unix Tools - Remedy, Jira, Confluence, Bit Bucket, Intllij, putty, toad, SQL Developer, MSSQL - Studio, Git Cache: Redis, EhCache, Memcache Cloud Engines: AWS, GCP Messaging systems: Kafka, ActiveMQ, RabbitMQ, Mqqt	6 to 8
Card Control - Quality Analyst	Educational Qualification: B.E/B. Tech/BSc in Computer Science and above Relevant Experience - 4-6 years Domain Knowledge - Cards & Payment, Fraud, Compliance A certified ISTQB specialist Expertise in the following test areas: Functional, integration, regression testing Load and stress testing Automated Testing Web \ Mobile \ API Testing Tools and technologies: Java \ jUnit \ Mockito \ REST Assured PostgreSQL \ Oracle \ MySQL Rest API \ SOAP API *nix system \ bash	4 to 6+

	Selenium WebDriver \ Selenoid \ Selenide Kubernetes \ k8s JMeter Tools - Remedy, Jira, Confluence, Bit Bucket	
ETL Developer - Talend /Python	Educational Qualification: B.E/B. Tech/BSc in Computer Science and above Relevant Experience - 3-5 years Technology - Java & Python Development Frame Work - Spring 3.0, JSP, Anuglar JS Tools - Talend - Development, Remedy, Jira, Confluence, Bit Bucket, putty, toad, SQL, Oracle Developer Database - Oracle / SQL OS - Windows, Unix	3 to 5
