Project presentation folder *

The presentation file is a key stage in your application. It enables evaluators and jury members to thoroughly analyze the relevance, viability and impact of your project. A well-structured and complete dossier will showcase your vision, expertise and ability to execute the project successfully. Every element of this dossier is essential to understanding the nature of your innovation, its market potential and its social and environmental impact. It must demonstrate your entrepreneurial maturity, determination and mastery of the issues related to your solution.

The file must obligatorily include the following elements:

1. Project summary (1,000 to 2,000 characters): Clearly set out the social and/or environmental issue your project seeks to resolve, highlighting the contribution of new technologies.

2. Market analysis: Describe your target market through segmentation, a SWOT analysis, a study of the competition and a presentation of your strategic and financial partners.

3. Identify the market opportunity: Explain why this project is relevant and how it meets a real need.

4. Presentation of the proposed product or service: Detail its functionalities, its innovative character and its added value for beneficiaries.

5. Management team information: Present the key members of your team, their skills and their roles in the project.

6. 3-year financial forecast (Business Plan): Provide a realistic projection of revenues, costs and investments required to ensure the project's growth.

7. Societal impact assessment: Describe how your project contributes to a measurable positive impact on society or the environment.

File format: PDF

Maximum size: 10 MB

A well-structured, well-argued dossier will increase your chances of convincing the jury and propelling your project to success. Take the time to do it right!
